The Call Outdoors

Springtime - A Time of Growth

Springtime in the northeast is a glorious time to enjoy the wonders of the Creator. Everything is being renewed from the harsh winter. The dormant grass is flourishing once again. The worms are sticking their noses out of the softened ground. The turkeys are sounding off on the hillsides. The cold chill of winter is slowly being replaced by the warm days of spring. New growth is abundant everywhere you look this time of year. The trees have their buds shooting out and the flowers start popping out of the once frozen ground. It is a reminder that God enjoys growth in a physical world but also in the spiritual world. Springtime reminds us that we too need to be growing and renewing ourselves with His purpose and plan. May I ask you, "Are you in the dormancy of spiritual winter or the fresh growth of a hope-filled spring?" God desires you grow in the knowledge of Him. Pray today for God to help you grow in Him.

A Word from the Creator: Psalm 1
