

3D Shoot By Jeff Murphy

Since The Call Outdoors is a ministry of Camp Sankanac, each year in September, we hold a couple of events at the camp. One of which is a 3D Archery Shoot held the first Saturday & Sunday after Labor Day. We set up 25 to 30 targets ranging from 10 – 60 yards of various North American and African game animals.

On Saturday, we run 2 sessions, one from 8:00 – 12:00 and a second from 1:00 – 4:00. Shooters are able to shoot both, if they want, at a discount and we have drinks and snacks available to buy from 12:00 – 1:00. On Sunday, we run from 1:00 – 4:00.

This was our second year doing this event, and even though we had to deal with remnants of a hurricane on Saturday, we still had people show up. On Sunday, we had return shooters and some new shooters. This is just a relaxing day for friends and family to come out, enjoy the scenic views and each other's company.
